Hi Paula,

I decided to work from home today. Please let me know if you plan on having a conference call today with them. I can call in.

Liz

Pat – I'm not sure we can track Dan down very quickly for a conference call today. Dan is working on the Gold King Mine release and I'm not sure how much time he even has to read his emails this week much less be on a call. Let me see what I can do to track him down and propose a time to have a call next week when Dan (hopefully) can be on the call. Stay tuned. Thanks

Paula Schmittiel

Paula,

Thanks for your response.

We would like to have a discussion with you.

We are available today at either 2:00 or 3:00.

I would like to ensure that Dan can participate as well.

If today doesn't work, I'd appreciate it if you would propose something for next week.

Thanks again,

Pat

**Subject:** Sunnyside's SW,GW Solid Phase work plan - Follow-up

Pat – On July 31<sup>st</sup> when we had a conference call on EPA's comments on Sunnyside's two work plans, it was suggested that we talk again this week regarding your SW,GW solid phase sampling work plan and our comments on the work plan.

I think you know that we have been a little busy this week but I wanted to let you know that Sherry, Liz and I are available to discuss further our comments should Sunnyside feel its necessary. Sherry and I are not available in the AM but we could be available for a conference call at 2:00 or 3:00 pm tomorrow afternoon. Sherry isn't available on Friday. (I don't know what Dan Wall's availability is either tomorrow or next week). Of course, we would have time next week also if that would be more convenient.

Please let me know how you wish to proceed. Thank you.
